How a COMMUNITY LAND TRUST (CLT) Works

1. A community is struggling with things like:

Rising housing costs and commercial rents

Overcrowding and Displacement

Lack of community and open spaces

Vacant buildings

2. Community Members work together to form a Community Land Trust (CLT), a non-profit, democratically governed organization that gets and keeps land in trust on behalf of the community.

3. The CLT facilitates community-driven planning to address the community's immediate and long-term needs. It works with resident groups, non-profit housing developers and other organizations to:

Preserve and enhance low-income housing and other places of value to the community

Develop unused spaces to meet community needs

THE COMMON LAND

the Economics of Happiness

"I think the only people who are happy, deeply happy and deeply secure, are people who know they can rely on someone else in life. People who know they are not alone in this world. Lonely people have never been happy people. Globalization is creating a very lonely planet."

Vandana Shiva
Navdanya, Seed Freedom
