Join us in creating a mapping project to identify and map all of the entities in _____ that are building an Economy for Our Common Good. These enterprises challenge the dominant economic model by taking actions that help solve our most vexing social, economic, environmental and political problems.. We are looking for people from all parts of _____ to assist with this project.. We want to connect and network the entities that are in solidarity around building a strong, vital, just and sustainable future in _____, while helping develop other necessary solidarity economy enterprises. Please help us in this important effort.

If you have questions, call or write _____
_____. Register for the class by calling _____ or go to www.
