

CRISIS OF ECONOMICS 2008 AND BEYOND

Classical economic assumptions are antiquated and false
Our biggest problems are caused by market failures
Market externalities is destroying the planet
The corporate economy enslaves people across the planet
Short-term corporate strategy depletes resources & natural systems
No One is Responsible for the Earth
Free Trade Economics is a fraud
Happiness is on the Decline
Free Traders are Pushing Deregulation
“Fair is foul and foul is fair” in our economy

VISIONS FOR A NEW ECONOMY

Community is Fun
The Solidarity Economy works better
Fast Money is wrecking our world
Join the Solidarity Economy
Join or form a localization movement
Form a Community Land Trust
Create a broader understanding of restoration economics
